NOT BRAND AWARENESS

This isn't about viral content or follower growth. This is about converting prospects who are in the consideration phase by demonstrating your authority and results.

- ✓ 15-25% improvement in overall lead conversion rates
- ✓ Higher case values from prospects who see authority content
- ✓ Reduced shopping around - prospects pre-sold on your expertise
- ✓ Protection against negative reviews and competitor comparisons

IDEAL CLIENT

PI firms with established practices who get leads from other marketing but want to improve conversion rates by building authority and trust in the digital research phase.

THE PSYCHOLOGY

Injury victims research multiple lawyers before deciding. The firm that looks most successful and authoritative on social media wins the psychological battle before the phone even rings.

NEXT STEPS
