

Traditional Media Services

Smart Strategy. Powerful Placement. Measurable Results.

Traditional media isn't dead. For personal injury firms looking to build trust, stay visible, and scale client acquisition, channels like radio, television, streaming, and outdoor advertising remain essential, evolving tools. But success in this space requires more than just placing ads. It demands **smart strategy, local market knowledge, compelling creative, and constant performance monitoring**. At Rankings, we bring a modern, data-driven approach to traditional media, helping personal injury firms cut through the clutter, reach the right people, and generate meaningful results while maximizing return on investment.

How We Do It: The Rankings Way

- **Media Planning & Buying**
Custom plans built for your audience, budget, and geographic market, designed to scale.
- **Audience Targeting**
We use local market data and consumer behavior insights to zero in on the right clients.
- **Creative Production**
Through our award-winning partners at Open Jar Concepts, we develop compelling, high-converting ad creative.
- **Creative Rotation & Messaging Cohesion**
We manage your creative calendar across all platforms to keep messaging fresh and aligned.
- **Performance Tracking & Reporting**
Proactive campaign management with monthly audits, Nielsen post-reports, and performance optimization.

Radio Advertising

Success in radio depends on aligning with local culture and community listening habits. Chasing nationally popular genres leads to higher costs and lower impact. We take a strategic, localized approach to drive awareness and brand recall without wasting spend.

In 2024, legal services advertising expenditure reached approximately \$2.5 billion, with radio ads accounting for over **6.8 million spots** — a significant increase from 1.8 million in 2017.

Live Broadcast Television

TV advertising remains one of the most effective tools for law firm growth. We manage your entire campaign, from market evaluation and affiliate negotiation to performance reporting, to ensure every placement delivers value.

\$1.2 Billion spent by personal injury lawyers on TV advertising through Nov. 2022, demonstrating the medium's significant role in client acquisition. -CNN

Streaming Video (CTV, OTT, VOD)

Video on demand and connected TV platforms offer precise targeting and massive reach, especially among younger demographics. We leverage direct publisher relationships to ensure your message is placed effectively for maximum return on investment.

66% of individuals aged 18-34 engaged with CTV daily in 2022, offering a valuable opportunity for law firms targeting this demographic.

Outdoor & Billboard Advertising

Billboards make your personal injury firm more visible in high-traffic areas and help keep your name top-of-mind when legal needs arise. We handle everything from location planning and creative rotation to performance tracking.

62% of law firm billboard advertising expenditures have risen since 2019, indicating a growing reliance on this medium. -OOH TODAY
